

The Duke Executive Health Program

The Duke Executive Health program provides a world-class streamlined, comprehensive personalized assessment.

Duke Executive Health provides an experience that addresses your current health status, risks for conditions such as coronary artery disease and diabetes, and your level of fitness, energy and sense of well-being. We build a customized schedule around your health history. Should the need arise, Duke Executive Health is able to provide immediate access to world renowned specialists located at Duke University Medical Center.

Within one day, Duke Executive Health provides you with all of the results from your assessments and a plan to keep yourself performing at the highest level.

Ask your Washington Duke Inn & Golf Club sales executive or conference planner for more details.
